

Dear Wayne Mills and Orcutt Gem & Mineral Society
members,

My name is Brittany Rodgers and I was lucky enough to receive a scholarship from your Gem & Mineral Society for Spring 2013 awards. The money will go towards enrollment costs for this summer's Summerfield course that I will be enrolling in. Summerfield is only offered every other summer semester and is the culmination of a geology majors career at SBCC. Thanks to the generosity of your club, I will be able to participate in this beneficial and unique experience in order to better prepare me for my future geologic path. All of your support to educational programs such as the SBCC Geology club and department, help many students get the very best from their experiences! Thank you!

—Brittany Rodgers
